MOTION TO AMEND APPLICATIONS

Applicant, Xylem IP Holdings LLC ("Applicant"), respectfully moves the Board to allow Applicant to amend its applications as provided below:

Serial No. 85/519,067 - XYLEM (Stylized)

Platinizing instruments in the nature of electroplating machines for use in replating platinum on an electrode, in International Class 7;

Platinizing instruments in the nature of electrolysis apparatus for electroplating purposes for use in replating platinum on an electrode; industrial liquid analyzers; radiometers for detecting and measuring small amounts of electromagnetic radiant energy; dew point hygrometers; computer software for controlling environmental water quality monitoring systems; computer software for displaying, calibrating and uploading data collected by environmental monitoring instruments and transferring it to computers; analytical instruments, namely, carbon dioxide monitors for non-medical use in the bioprocessing and fermentation industries; sensor-based bioanalytical instruments for non-medical use in the nature of electronic biochemistry analyzers, monitors and probes for measuring carbohydrates, vitamins, amino acids and dissolved gases; bioanalytical systems for non-medical use comprised of optical, electrochemical, potentiometric and photometric sensors for measuring carbohydrates, vitamins, amino acids and dissolved gases, in International Class 9;

Blood glucose oxidase meters, excluding pharmaceutical preparations, in International Class 10;

Non-metal o-ring gaskets for use as replacement parts in blood glucose oxidase meters, in International Class 17.

Serial No. 85/519,065 - XYLEM

Platinizing instruments in the nature of electroplating machines for use in replating platinum on an electrode, in International Class 7;

Platinizing instruments in the nature of electrolysis apparatus for electroplating purposes for use in replating platinum on an electrode; industrial liquid analyzers; radiometers for detecting and measuring small amounts of electromagnetic radiant energy; dew point hygrometers; computer software for controlling environmental water quality monitoring systems; computer software for displaying, calibrating and uploading data collected by environmental monitoring instruments and transferring it to computers; analytical instruments, namely, carbon dioxide monitors for non-medical use in the bioprocessing and fermentation industries; sensor-based bioanalytical instruments for non-medical use in the nature of electronic biochemistry analyzers, monitors and probes for measuring carbohydrates, vitamins, amino acids and dissolved gases; bioanalytical systems for non-medical use comprised of optical, electrochemical, potentiometric and photometric sensors for measuring carbohydrates, vitamins, amino acids and dissolved gases, in International Class 9;

Blood glucose oxidase meters, excluding pharmaceutical preparations, in International Class 10;

Non-metal o-ring gaskets for use as replacement parts in blood glucose oxidase meters, in International Class 17.

For convenience, a redline of the proposed amendments is below:

Serial No. 85/519,067 - XYLEM (Stylized)

Platinizing instruments in the nature of electroplating machines for use in replating platinum on an electrode, in International Class 7;

~~Electronic apparatus for testing the sterility of medical equipment; platinizing instruments in the nature of electrolysis apparatus for electroplating purposes for use in replating platinum on an electrode; industrial liquid analyzers; radiometers for detecting and measuring small amounts of electromagnetic radiant energy; dew point hygrometers; clinical laboratory analyzers for measuring, testing and analyzing blood for blood glucose and blood lactate; computer software for controlling environmental water quality monitoring systems; computer software for displaying, calibrating and uploading data collected by environmental monitoring instruments and transferring it to computers; analytical instruments, namely, carbon dioxide monitors for non-medical use in the bioprocessing and fermentation industries; sensor-based bioanalytical instruments for non-medical use in the nature of electronic biochemistry analyzers, monitors and probes for measuring carbohydrates, vitamins, amino acids and dissolved gases; bioanalytical systems for non-medical use comprised of optical, electrochemical, potentiometric and photometric sensors for measuring carbohydrates, vitamins, amino acids and dissolved gases, in International Class 9;~~

~~Blood glucose oxidase meters, excluding pharmaceutical preparations; heat stress instruments in the nature of medical devices for measuring heat stress in human beings that utilize ultrasonic oscillations to measure body temperature and respiration, in International Class 10;~~

Non-metal o-ring gaskets for use as replacement parts in blood glucose oxidase meters, in International Class 17.

Serial No. 85/519,065 - XYLEM

Platinizing instruments in the nature of electroplating machines for use in replating platinum on an electrode, in International Class 7;

~~Electronic apparatus for testing the sterility of medical equipment; platinizing instruments in the nature of electrolysis apparatus for electroplating purposes for use in replating platinum on an electrode; industrial liquid analyzers; radiometers for detecting and measuring small amounts of electromagnetic radiant energy; dew point hygrometers; clinical laboratory analyzers for measuring, testing and analyzing blood for blood glucose and blood lactate; computer software for controlling environmental water quality monitoring systems; computer software for displaying, calibrating and uploading data collected by environmental monitoring instruments and transferring it to computers; analytical instruments, namely, carbon dioxide monitors for non-medical use in the bioprocessing and fermentation industries; sensor-based bioanalytical instruments for non-medical use in the nature of electronic biochemistry analyzers, monitors and probes for measuring carbohydrates, vitamins, amino acids and dissolved gases; bioanalytical systems for non-medical use comprised of optical, electrochemical, potentiometric and photometric sensors for measuring carbohydrates, vitamins, amino acids and dissolved gases, in International Class 9;~~

~~Blood glucose oxidase meters, excluding pharmaceutical preparations; heat stress instruments in the nature of medical devices for measuring heat stress in human beings that utilize ultrasonic oscillations to measure body temperature and respiration, in International Class 10;~~

Non-metal o-ring gaskets for use as replacement parts in blood glucose oxidase meters, in International Class 17.

These amendments are pursuant to an agreement executed by Applicant and Opposer.

Date: April 22, 2014
